SUMMARY

Computer Science undergraduate skilled in full-stack development, data structures, and backend systems. Experience building scalable web applications and AI-driven platforms through internships and projects. Interested in software engineering, problem solving, and developing impactful technology solutions.

EXPERIENCE

Unified Mentor Pvt Ltd.

May 2025 – Jul 2025

Full Stack Web Development Intern

Remote

- Worked on backend logic, database integration, and REST API development.
- Improved application performance and implemented responsive UI components.

Evoastra Ventures Inc.

Sep 2025 – Oct 2025

Data Scientist Intern

Remote

- Performed data preprocessing, visualization and analysis for business insights.
- Applied machine learning concepts for predictive analysis.

PROJECTS

Invigilation Management System

- Developed a web-based system to automate exam scheduling, invigilation allocation, and seating arrangement.
- **Live:** Website | **GitHub:** Source Code

Mini Social Media Platform

- Developed a lightweight social networking platform with authentication, posts, and interactions.
- **Live:** Website | **GitHub:** Repository

Blockchain Based EHR System

- Built a blockchain-based EHR system for secure and tamper-proof medical records.
- **Live:** Website | **GitHub:** Repository

AI Interview Preparation Platform

- Built an AI-powered interview platform generating questions and feedback.
- **Live:** Website | **GitHub:** Repository

EDUCATION

JNTUA College of Engineering, Anantapur

2023 – Present

B.Tech in Computer Science Engineering

CGPA: 8.88

Sri Vasavi Junior College, Dharmavaram

2021 – 2023

Intermediate (12th Grade)

Score: 9.58

AP Model School, Dharmavaram

2021

Secondary School Certificate

Score: 9.7

SKILLS

Languages: Python, Java, C++, JavaScript

Web: HTML, CSS, React, Node.js

Databases: MySQL, PostgreSQL

Tools: Git, GitHub

Core: Data Structures & Algorithms, OOP, DBMS

CERTIFICATIONS

- Full Stack Web Development Internship Completion Certificate and LOR
- Data Scientist Internship Certificate
- Cybersecurity Analyst Job Simulation Completion Certificate

ACHIEVEMENTS

- Successfully designed and delivered multiple end-to-end software projects with real-world impact.
- Gained practical industry exposure in Data Science and Cybersecurity domains.
